PROFILE

Final-year student in Geodesy and Geomatics Engineering at Institut Teknologi Bandung (ITB) with a strong interest in hydrographic and offshore surveying. Experienced in field-based surveys, GNSS RTK, UAV mapping, and geospatial data processing. Demonstrates solid leadership experience, strong HSSE awareness, and adaptability in multidisciplinary teams. Highly motivated to contribute to field operations and grow within the geospatial and surveying industry.

EDUCATION

Institut Teknologi Bandung (ITB) | Bachelor of Geodesy and Geomatics Engineering August 2022 – August 2026 (Expected)

- **GPA:** 3.29/4.00
- **Undergraduate Thesis:** Developing a web-based geospatial information system to estimate state financial losses resulting from reduced rice productivity due to flood and drought disasters.
- **Specialization:** Hydrography (Successfully completed Offshore Positioning and Nautical Sciences, and currently enrolled in Hydrography Practice and Met-Ocean Analysis).

WORK EXPERIENCE

Administration and Mapping Sub Division - Internship | PT Perkebunan Nusantara I Regional 2 (Ex. PTPN VIII) July 2024 – August 2024

- Developed a geospatial database for plantation areas of PTPN I Regional 2.
- Digitized plantation maps based on land parcel data.
- Conducted field surveys and mapping activities across plantation areas.

Assistant Lecturer of Geospatial Expedition | Institut Teknologi Bandung (ITB) September 2024 – November 2024

- Prepared Job Safety Analysis (JSA) and developed STOP Cards to ensure compliance with Standard Operating Procedures (SOP) during expedition activities.
- Conducted orienteering training and provided field guidance to students.
- Ensured the implementation of Health, Safety, Security, and Environment (HSSE) standards throughout Geospatial Expedition field activities.

Upstream Innovation Geomatics - Internship | PT Pertamina Hulu Energi (PHE) July 2025 – August 2025

- Conducted underground pipeline detection and positioning for a 24-inch pipeline using GNSS RTK and magnetometer in the operational area of Pertamina EP Field XX, West Java.
- Performed ground-based line surveys covering approximately 15 km and acquired aerial and thermal imagery using UAVs to support basemap development and pipeline route visualization.
- Processed and analyzed survey and spatial data using Agisoft Metashape, Emlid Studio, ArcMap, and Trimble Business Center (TBC).

Spatial Database Assistant at Geospatial Information Laboratory | Institut Teknologi Bandung (ITB) September 2025 – December 2025

- Served as a teaching assistant for the Spatial Database course, supporting lectures and hands-on practical sessions.
- Developed and prepared practical modules using Microsoft Access, PostgreSQL, and PostGIS.
- Provided technical guidance and assistance to students in spatial database management and geospatial data processing.

Geospatial Hazard Recovery Assistant for Sumatra | Institut Teknologi Bandung (ITB) February 2026 - Present

- Serve as a Geospatial Assistant at ITB, specializing in spatial data processing and analysis for disaster mitigation and recovery mapping.
- Execute advanced processing of orthophotos, Digital Elevation Models (DEMs), and satellite imagery using ArcGIS and QGIS to ensure data accuracy.
- Leverage Google Earth Engine for large-scale satellite data analysis and environmental monitoring to support regional disaster management initiatives.

ORGANIZATIONAL EXPERIENCE

Field Coordinator | Parade Wisuda Oktober ITB 2024 September 2024 – February 2025

- Create a field plan for a procession for 44 Student Association Departments with a mass of approximately 12.000 people.
- Implement field planning according to the planned route and time.
- Coordinate with the Field Coordinators of the 44 Student Association Departments.

Head of Health, Safety, Security, and Environment (HSSE) Division | Field Camp ITB 2025 February 2025 – September 2025

- Led the HSSE Division for a 9-day field camp involving 122 participants in Desa Santosa, Bandung Regency, ensuring the implementation of safety, security, and environmental protocols.
- Developed and enforced HSSE procedures, conducted daily safety briefings, and monitored field operations to minimize risks and maintain compliance throughout all field activities.

Chairman | Ikatan Mahasiswa Geodesi Institut Teknologi Bandung (IMG-ITB) May 2025 – February 2026

- Served as Chairman of IMG-ITB, leading 6 divisions and 2 semi-autonomous bodies (BSO).
- Coordinated organizational planning and execution to ensure effective cross-division collaboration.
- Implemented programs focused on members' self-development and professional growth.

SKILLS & LANGUAGES

Languages: English (Professional Working Proficiency), Indonesian (Native)

Technical Skills: Land Surveying, Hydrographic Surveying, HSSE Management Systems, Spatial Data Management

Technical Tools & Software: TBC, Emlid Studio, Agisoft Metashape, ArcMap/ArcGIS, QGIS, PostgreSQL & PostGIS, Microsoft Office

Career Interest: Hydrographic Surveying, Offshore Surveying, Land & Mining Surveying, GIS Analysis, Data Analysis, and Data Processing.
Available for full-time employment and field-based assignments.
